

Get to Know John Rafael Enriquez

BS Mechanical Engineering 2A

Get to Know Me

I'm John Rafael Enriquez

I was born on May 19, 2006 in Davao City, and I'm currently 19 years old

I'm a 2nd-year Mechanical Engineering student at Ateneo de Davao University

I like music, basketball and badminton and strategy games, and I play in bands occasionally as a guitarist when I have the time

Skills and Career Goals

I honestly don't have any skills, at least none worth nothing.

But because they're in the rubrics:

1. I'm a good **listener**
2. I'm a good **speaker**
3. I think outside the box
4. I'm a fast **learner**
5. I'm a good **cook**

I'm currently an engineering student, but I've decided that I want to shift towards a Nursing program instead next year.

Thank You!

I appreciate you reading this
presentation
and learning more about me.
